

Bedside cabinets and server for hospitals and healthcare facilities

Völker bedside cabinets

The ideal complement to any bed.

In addition to the bed, the bedside cabinet is a key aid for patients and residents during their stay. On the one hand, it ensures that all important items, such as books, glasses and electronic devices, are within reach at all times. On the other hand, it enables patients to eat meals in a comfortable and convenient position. Here you will find an overview of the Völker bedside cabinet models.

Practical solutions for nursing, mealtimes or relaxation: our bedside cabinets with their optional, height-adjustable bedside tables or the Server RT-985 are extremely versatile and convenient.
